HOW TO RECEIVE A DREAMLINE CUSTOM GLASS SHOWER DOOR QUOTE

1 CONSIDER THE FOLLOWING SHOWER DOOR SPECIFICATIONS:

- Determine Function of Door*
  SWING DOOR, SLIDING DOOR WITH STATIONARY PANEL, BYPASS DOOR (2 MOVING PANELS)
- Consider Configuration
  (LAYOUT DETAIL - DOOR OR ENCLOSURE? ALL PANELS SAME HEIGHT OR BUTTRESS?)
- Determine Glass Thickness *
  1/2", 3/8", 5/16", 1/4", 3/16"
- Determine Glass Type*
  CLEAR, FROSTED, RAIN, FRENCH GRID PATTERN
- Determine Frame/Hardware finish*
  CHROME, BRUSHED NICKEL, OIL-RUBBED BRONZE, SATIN BLACK

2 FORM COMPLETION PROCESS:

A. Add store number and store associate contact information to the form
B. Check boxes of desired options on form
C. Fill in finished wall dimensions
D. Send the completed form to DreamLine via email

For questions, or assistance with filling out the form, please contact the DreamLine Custom Glass Team

HELPFUL HINTS

- Use finished wall dimensions (after tile)
- Check walls and curbs for plumb and level conditions
  MAKE ADJUSTMENTS SO THAT ALL GLASS PANELS WILL MEET THE SAME FINISHE D HEIGHT
- Measure at the center line (where glass panels will be positioned)
- Measure top, middle and bottom of finished walls
- Provide shower head location (left, right or ceiling)

CONSIDERATIONS

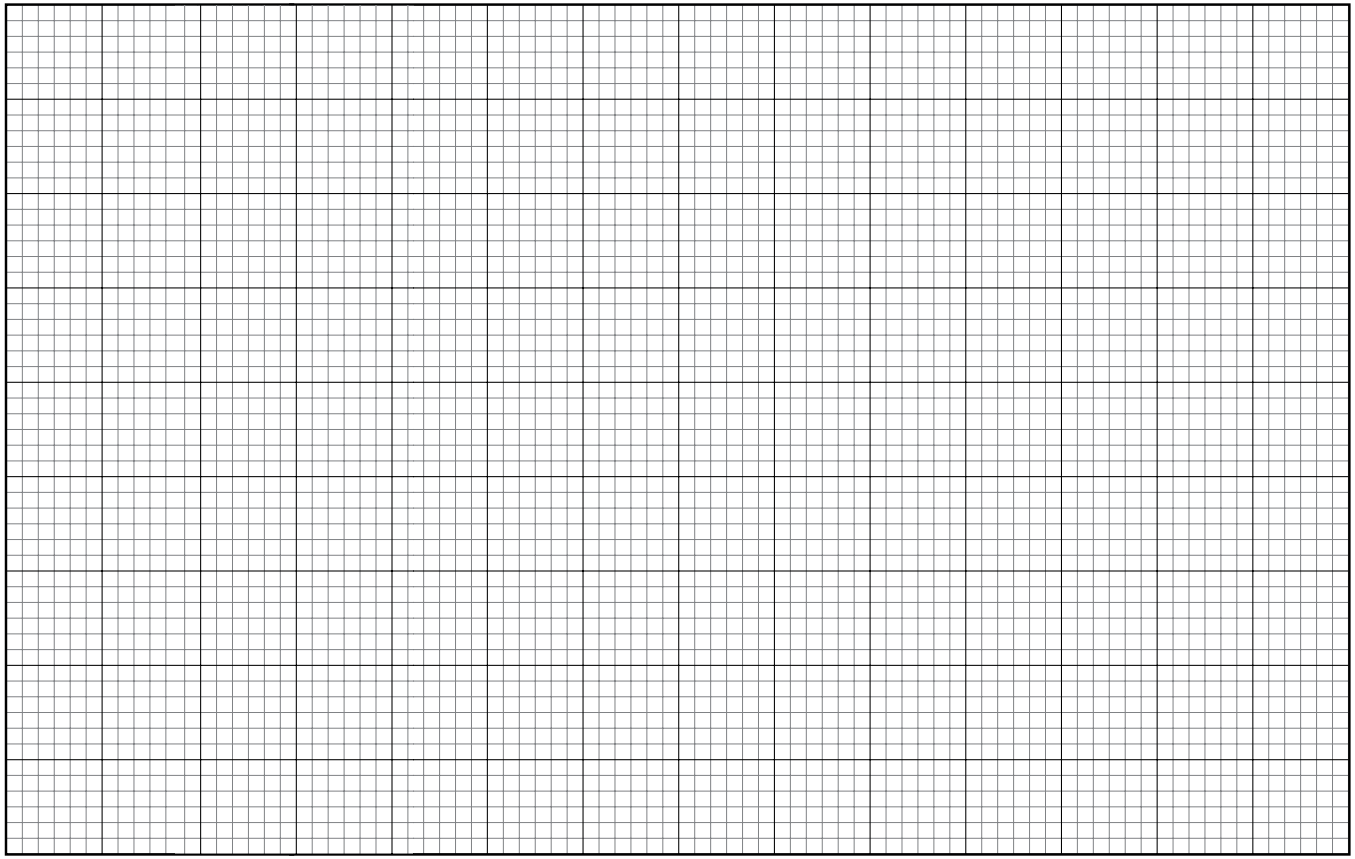

- Channels and jambs will come in standard lengths and require modification on site
- Some variances to installation manual may apply, due to custom sizes of panels
- French grid pattern will not align if out level and plumb conditions exist
- Frameless glass units are not 100% watertight
- Fiberglass walls and bases are not approved for heavy glass panel installation
- Professional installation is recommended
